

K Love radio station, 104.3 FM, is a positive influence in my community. They provide a positive, uplifting message, are family friendly, & provide info on free family events in my community. If K-Love were removed fromt the radio it would be a great loss for the area. K-Love helps to uplift listeners daily with friendly positive messages in the songs & radio personalities. I would not know of the many free local family events without KLove. K-Love serves this community well by encouraging listeners when they are down & helping them to get through each day in a positive way.
